

# IN SEARCH OF AN OASIS

© Sundeep Bali/SDC

**13 OCT-06 NOV  
2022**

**Open Spaces  
India Habitat Centre**

It is through cooperation that we can work for a better, more sustainable future; and that we have the capability to imagine and create our own oasis.

10 photographers across the breadth of India were commissioned to capture a plurality of interventions being taken against the onslaught of climate change.

Within the complex network of causes and effects, the exhibition asks what position do we occupy as citizens?
